Asthma Care Plan

Sample document - Review and personalize with your clinician

Important This is a presentation sample, not a personalized treatment plan. Use your clinician's written instructions for medicines, peak-flow zones, and emergency steps.

My information

Name _____

Clinician _____

Phone _____

Daily plan

Take medicines exactly as prescribed. Keep your prescribed reliever and spacer available. Record symptoms and breathing readings as directed by your care team.

My prescribed medicines: _____

Doing well

Follow your usual prescribed plan. Keep track of symptoms and known triggers.

Symptoms getting worse

Follow the yellow-zone steps in your personal action plan. Contact your clinician if symptoms continue or worsen.

Severe breathing trouble

Get emergency help now for severe difficulty breathing, blue or gray lips, fainting, or trouble speaking. In the U.S., call 911.

Personal instructions from my clinician
